Inspection report

LJ.GJ-JSZJ-32-01

Report Order Number: 20260430-01

Product name	0.3%neem emulsifiable concentrate	Product specifications	1000ml*12/ bottles	Production date and the annotation	20260430/ NY2604
Outbound quantity	30 items	Quantity of sampling inspections	10 bottles	Inspection date	2026.04.30
External examination	Basis for inspection	"Regulations for Acceptance of Commercial Pesticides"			
	Serial number	Inspection items	Standard requirements	Inspection records	Judgment
	1	Packaging	Clean and tidy, with good box sealing	Meet the requirements	Qualified
	2	Appearance	(1)Bottle/bag bodies should be clean and free of deformation; (2)Labels mustbe free of wrinkles and misalignment; (3)Clear and accurate inkjet/encoding	Meet the requirements	Qualified
	3	Sealed	The seal is well sealed, with no leakage	Meet the requirements	Qualified
	4	Attachment	Complete attachments:certificate of conformity, promotional leaflet	Meet the requirements	Qualified
	Quality Inspector		彭友		
Physicochemical properties of the agentInspection	Inspection Basis	Q/91511400MACCYW213 • 1-2025			
	Serial number	Inspection item name	Standard specified values	Measured values	Conclusion
	1	Appearance	Light brown homogeneous	Meet the requirements	Qualified
	2	Neem (A+B) mass fraction, %	0.3 ± 0.07	0.30	Qualified
	3	Moisture, %	≤ 1.5	0.75	Qualified
	4	pH value	4.5-7.5	5.6	Qualified
	5	Emulsion stability (diluted 200)	Qualified	Meet the requirements	Qualified
	6	Long-lasting foaming (after 1 minute),	≤ 40	5	Qualified
	Note:Low-temperature and thermal storage stability tests should be tested at least once every 3 months under normal production conditions				
	Analytical Inspector		高敏	Reviewer	
Inspection conclusions	inspection, this batch of products meets the requirements of the Q/91511400MACCYW213-2025 standard and qualified
