TECHNICAL DATA SHEET

Commercial Name	PLANTOMIL SUPER
Content	Dimethomorph 120g/kg+Cuprous Oxide 600g/kg WP
Formulation	Wettable powder (W P)
Chemical familiy	
Biological activity	Fungicide
Site of action	Within a gully, protection and treatment. Plants can be the root, stem, leaf absorption, and with the water plant operation and transferred to the plant organs and can be used for stems and leaves, seeds and soil treatment.
Mode of action	Contact , Ingestion and vapor
Use	Protection of cocoa
Targeted disease	Black pod disease
Use rate	50gr / 15 L of water
Method of application	▪Mist-blowing ▪Spraying
Number/Frequence of application	1 (one) treatment at 21 days interval 4-6 applications depending on the disease pressure.
Restrictions of use	Do not mixed with alkaline agrochemicals, high toxic to fish etc.
Professed resistances	none known
MRL	0.08 mg/KG
Country of Origin	CHINA
Name of the formulator	Shenyang Research Institute of Chemical Industry
Name of the manufacturer	Shanghai Bosman Industrial CO., LTD.
